

JASEELA

Software Engineer | Backend & Full-Stack | Cloud (AWS) | Abu Dhabi, UAE | Immediate Joiner
jaseelavaliyathodi@gmail.com | +971 56 721 8741 | linkedin.com/in/jaseela-v

PROFESSIONAL SUMMARY

Backend-focused Full-Stack Software Engineer with 3+ years of experience designing and scaling enterprise-grade systems in Java, Kotlin, Spring Boot, Python, SQL, and React.js on AWS. Delivered a **40% reduction** in end-to-end latency and a **30% gain** in API throughput on a distributed patent-intelligence platform sustaining **170M+ records**. Skilled in REST/GraphQL API design, full-stack integration, serverless event-driven architecture, SQL query and index optimisation, and secure IAM/Cognito-based access control. Based in Abu Dhabi – **Immediate Joiner**.

PROFESSIONAL EXPERIENCE

Software Engineer – Backend & Full-Stack

Relecura Technologies Pvt. Ltd. | November 2022 – June 2026 | Remote

Large-scale patent intelligence platform — 170M+ records across distributed systems.

Backend & API Development

- Built REST and GraphQL APIs in **Java, Kotlin, Spring Boot, and Python**, powering a fault-tolerant platform serving **170M+ records**.
- Raised API throughput **30%** through query optimisation, strategic indexing, and caching under peak concurrent load.

Cloud & Serverless Architecture

- Built event-driven serverless microservices on **AWS Lambda, API Gateway, and SQS**, cutting end-to-end latency by **40%**.
- Secured all platform modules with **Cognito and IAM** authentication, closing unauthorised access gaps at scale.
- Managed **AWS production infrastructure (EC2, S3, RDS)**, sustaining **99.9%+ uptime** while scaling services horizontally.

Full-Stack Integration & Collaboration

- Integrated REST and GraphQL APIs with **React.js**, speeding up data loads and improving UX across all platform views.
- Shipped features on schedule across every **Agile/Scrum** sprint, partnering cross-functionally to sustain team velocity.

KEY PROJECTS

REST API Platform for Patent Data

- Built scalable RESTful APIs in **Java, Kotlin, Spring Boot, and Python** processing **170M+ patent records** with Cognito/IAM-secured access.
- Achieved a **30% performance gain** through query optimisation and multi-layer caching at enterprise scale.

SQL Database Performance Optimisation

- Diagnosed slow queries across **PostgreSQL** and **MySQL** on the 170M+ record platform using execution-plan analysis.
- Redesigned indexing and rewrote high-cost queries, driving the platform’s **30% API throughput** gain and faster peak-load response.
- Added server-side caching alongside query tuning, cutting redundant database load on high-traffic endpoints.

Serverless Microservices System (AWS)

- Designed event-driven microservices on **Lambda, API Gateway, and SQS**, enabling scalable async pipelines for high-throughput workloads.
- Cut end-to-end latency **40%** by optimising SQS message flow and cloud-native async communication patterns.

Full-Stack Data Platform

- Built responsive React.js features with seamless REST/GraphQL integration, cutting data load times platform-wide.

TECHNICAL SKILLS

Languages	Java, Kotlin, Python, JavaScript, SQL
Backend	Spring Boot, REST APIs, GraphQL, Microservices, API Integration
Cloud (AWS)	Lambda, API Gateway, EC2, S3, RDS, SQS, Cognito, IAM
Databases	PostgreSQL, MySQL, Query Optimisation, Indexing
Frontend	React.js
Tools	Git, GitHub, Postman, Jira, IntelliJ IDEA

EDUCATION

Master of Computer Applications (MCA)	2019 – 2022
<i>Cochin University of Science and Technology</i>	
Bachelor of Science in Mathematics	2016 – 2019
<i>Calicut University</i>	

CERTIFICATIONS

-
- **Java Class Library** – Coursera
 - **Learning REST APIs** – LinkedIn Learning

LANGUAGES & ADDITIONAL

English – Professional proficiency
Malayalam – Native
Visa Status: Husband Visa (UAE)
